

THE TURBO 3000D

Proven fuel and emission saving device

Improves fuel atomization by:

- Changing the travel pattern of the fuel prior to entering the fuel injector
- The efficient delivery of fuel to the fuel injector reduces the effects which commonly create streaming
- Smoother idle
- Quieter engine
- Lower emissions (better burn)
- Improved fuel economy (better burn)
- Increased horsepower
- Unique to your equipment

**Guaranteed to
improve your diesel
engine's fuel
economy by a
minimum of 10%
or your money back!**

THE TURBO 3000D

Proven fuel and emission saving device

1. The TURBO3000D was designed to help fuel burn cleaner and more completely in the combustion chamber, thus reducing exhaust emission of hydrocarbons and carbon monoxide.
2. The TURBO3000D has proven that by changing the travel action of the fuel prior to the fuel injector improved fuel injector performance results leading to significant combustion efficiency, and improved flame propagation.
3. The TURBO3000D is a proven product, installed on numerous trucks, vans, light trucks, RV's, and boats, since 1990.
4. The TURBO3000D is precision engineered using our patented design of stainless steel and corrosion resistant aluminum.
5. The TURBO3000D can be quickly and easily installed on most vehicles. Once installed, our product requires no maintenance.
6. The TURBO3000D guarantees that you will have a minimum of 10% increase in your fuel economy or your money back!!*
